What's ELVI-BEETLE? A tribute to ELVIS & The BEATLES together on one stage.

Ever wonder if ELVIS & The BEATLES could have joined forces in 1965 when they first met? Ever wonder what they would have sounded like together? There wouldn't have been a stadium large enough to hold this MEGA-CONCERT, right? WAIT NO LONGER!!!! Legends Cafe Entertainment and the British Network Entertainment teamed up to re-create the concert never heard before! Guaranteed to bring fans from both sides of the spectrum together to see this amazing performance! Imagine the Beatles opening the show for the KING and then actually becoming the KING's back-up band, and singing back-up harmony, along with a duet never heard before.
